Scale Insects

# ORGANIC NEEM OIL 99.9%

**ORGANIC NEEM OIL 99.9%** is organic insecticide that washes off and covers pests' waxy protective layer, causing death due to suffocation. Does not create pest resistance.

**ORGANIC NEEM OIL 99.9%** kills eggs, larvae and adult garden insects. It also prevents and controls black spot, rust and powdery mildew.

**ORGANIC NEEM OIL 99.9%** is a broad-spectrum Fungicide, Miticide and Insecticide.

**ORGANIC NEEM OIL 99.9%** is highly effective and economical botanical oil which is being used indoors as well as outdoors on ornamental flowering plants, trees, shrubs and foliage grown in greenhouses, interiorscapes and commercial landscapes.

**ORGANIC NEEM OIL 99.9%** coats fungal spores and then dehydrates them to stop the disease cycle.

**ORGANIC NEEM OIL 99.9%** is applied when conditions favor disease development but before major symptoms occur.

**Active Ingredient**

Extract of Neem Oil .....	99.9%
Inert Ingredients .....	0.10%
<b>Total</b> .....	<b>100 %</b>

**General Information:**

- Kills eggs, larvae and adult insects.
- Prevents and controls black spot on roses, anthracnose, rust and powdery mildew.
- For best results, maintain constant agitation in spray equipment.
- For optimal performance, do not mix with cold water (less than 45° F).
- Use spray solutions within several hours of preparation for maximum effectiveness. Do not store diluted solution for later use.
- Do not apply to wilted or otherwise stressed plants, or to newly transplanted materials prior to root establishment.
- Do not apply to known sensitive plant species, such as impatiens flowers, fuchsia flowers, hibiscus flowers, some rose flowers, ornamental olive trees or some carnation varieties, without prior testing.
- When used in conjunction with beneficial insects, it is recommended that a small trial be conducted to assure compatibility before using on a large scale.

- As with other oil-based products, care should be exercised in timing applications to early morning / late evening to minimize the potential for leaf burn.
- Use with care on plants with tender tissue. Check for leaf burn in small-scale trials prior to use.
- Thorough coverage is necessary to provide good disease and mite control. **ORGANIC NEEM OIL 99.9%** prevents fungal attack of plant tissue and contact activity to mite pressure on the plant. Avoid excessive runoff of spray material for maximum control.

Situation 状况	Application rate / 1L of Treatment Water 施用量 / 1公升净化水	Application Interval 间隔
General preventive measures 一般预防性使用	5ml 毫升	7 - 10 days Spray all plants & plant surface, including under slides of leaves.
Serious pest outbreak 严重病害	8ml 毫升	

**First Aid (Practical Treatment):**

- If swallowed. Have the exposed person drink 1 or 2 glass of water. Do not induce vomiting. Seek medical help immediately.
- If inhaled. Remove to fresh air. If patient is uncomfortable, seek medical for help.
- If in contact with eyes. Flush with plenty of clean water for 15minutes. Seek medical help if irritation persists.
- If on skin. In case of contact, remove contaminated clothing and immediately wash skin with soap and water. Seek medical help if irritation persists.

**Storage:**

Keep in original container. Keep out of reach of children.

Store in a dry place, away from direct sunlight, open flame and food staff.
