

LIQUID OXYGEN PLUS

*Adding Fresh Oxygen
Killing Pathogens*

LIQUID OXYGEN PLUS (Active Ingredient : Hydrogen Peroxide H_2O_2) prevents unwanted bacteria & fungi that may be lurking in the garden.

LIQUID OXYGEN PLUS save houseplants that have become waterlogged. When plants are overwatered, water fills the air spaces in the soil, cutting off the flow of oxygen to the roots.

LIQUID OXYGEN PLUS helps encourage healthy root growth because of the extra oxygen molecule. Oxygen can help plant roots absorb nutrients from the soil.

Therefore, this extra bit of oxygen better enables the roots to absorb more nutrients, which means faster, healthier, and more vigorous growth.

LIQUID OXYGEN PLUS well-known cleansing and oxygenating agent for hydroponic systems.

LIQUID OXYGEN PLUS contains hydrogen peroxide (H_2O_2) which is a highly unstable molecule.

It will quickly break down in the nutrient tank releasing a free atom of oxygen.

This oxygen atom is extremely reactive and will attach itself to either another atom, forming a stable oxygen molecule, or attack a nearby organic molecule, such as a virus or fungal spore.

Benefits

- Combat Root Rot
- Fight Fungal Infections
- Use to Fertilize Your Plants
- Accelerate Seed Germination
- Disinfect Tools, Pots, and Greenhouses
- Disinfect Growing Medium
- Use in Aquaponics and Hydroponics
- Sanitize Seeds
- Keep Pests Away
- Prevent Bacterial Rot
- Kill Weeds
- Water Treatment
- Vigorous Growth
- Eco Friendly

Directions for Use

- Spray on roots and leaves
- Do not water immediately after application
- Do not apply under hot sun
- Apply once a week
- Shake well before use
