

GARDEN INSECTS TERMINATOR

For control of foliage feeding worms (caterpillars), leafminers, thrips, fire ants and other listed pests

- Lawns
- Outdoor Ornamentals
- Vegetables, Apples, Citrus and Stone Fruit

Active Ingredient:

Spinosad (a mixture of Spinosyn A and Spinosyn D)	2.5%
Other Ingredients:	97.5%
Total:	100%

GARDEN INSECTS TERMINATOR is intended for control of worms (caterpillars) and other listed insects.

GARDEN INSECTS TERMINATOR does not significantly impact predatory beneficial insects, predatory mites, and spiders while controlling target pests.

Susceptible insect pests may be observed on plants up to several hours (2 to 3 hrs) after treatment, but will have ceased active feeding before being killed.

DIRECTION FOR USE : Shake well before use.

APPLICATION FREQUENCY :
Apply every 2 to 3 weeks (14 days to 21 days interval)

USES : Home Garden Crops & Pests Controlled

GENERAL USE PRECAUTIONS :

- Do not treat pets.
- Do not graze livestock in treated areas.
- Do not feed treated grass cuttings (hay) or seed screenings to livestock or use hay for livestock bedding.
- Do not apply directly to fish pools and other bodies of water that may contain fish.
