

BIO-PLUS

ORGANIC FERTILIZER

N-P-K 8+8+8+TE

有機複合粒肥

BIO-PLUS ORGANIC FERTILIZER N-P-K 8+8+8+TE contains nutrients required for healthy overall plant growth, in addition, it contains humates to balance pH levels of the soil as well as conditioning the soil.

BIO-PLUS ORGANIC FERTILIZER N-P-K 8+8+8+TE also helps stimulate root growth, fruiting and leaf growth in crops, ornamental plants, landscape plants and fruit trees.

BIO-PLUS ORGANIC FERTILIZER N-P-K 8+8+8+TE is a soil conditioner like no other, improving soil structure and moisture retention, releasing locked-in minerals for uptake by plants, and increasing worm populations and other biological activity in the soil.

When it's time for planting, **BIO-PLUS ORGANIC FERTILIZER N-P-K 8+8+8+TE** gives your seeds the best possible start – it is natural stimulator of germination and root growth.

Benefits

- Stimulates growth of beneficial soil fungi and bacteria.
- Provides readily available source of carbon for soil micro-organisms.
- Good chelating properties which reduce loss of nutrients due to leaching and run-off.
- Free-up many soil-bound nutrients, particularly phosphates, calcium and micro-nutrients.
- Lock-up aluminium in acidic soils what are harmful to plant growth.
- Good buffering capacity which help stabilise the soil against strong pH changes from the fertiliser applications.
- Promotes soil agglomeration and better soil structure.

STARX[®]
FOR ORGANIC GARDENING

- Opens up heavy clays and hard, compact soils.
- Helps soil wetting which reduces surface soil crusting and improves water penetration and retention in the soil.

BIO-PLUS ORGANIC FERTILIZER N-P-K 8+8+8+TE is made from organic plant-based materials.

Directions of Use

Sprinkle approximately 5g of fertilizer onto the soil of small potted plants (5g - 10g for large pots, 20g for trees) once every 2 - 3 weeks, water immediately after to start absorption by the plants.

Contains

Nitrogen (N)	8%
Phosphorous (P)	8%
Potassium (K)	8%
Magnesium (MgO)	3%
Humate	10%

Application

Crops	Dosage
Small Potted Plant (< 22cmØ Pot)	2g - 3g
Big Potted Plant (> 22cmØ Pot)	5g - 10g
Small Plant in Ground (0.1 - 0.5mH)	5g
Medium Plant in Ground (0.5 - 1mH)	20g
Big Plant in Ground (> 1mH)	40g
Garden Beds (Per Square Foot)	5g - 10g
