Plant Nutrients

MKP BLOOM ENHANCER

Ideal For All
Growth Stages

MKP Bloom Enhancer is pure residue-free fully hydrosoluble monopotassium phosphate (0-52-34).

MKP Bloom Enhancer provides a huge amount of needed phosphorous and potassium to plants at all growth stages.

MKP Bloom Enhancer highly recommended for early growing season, when phosphorus and potassium are needed at high rates for the establishment of root system.

Application of **MKP Bloom Enhancer** at the productive stages helps the crops to increase sugar content and to improve the quality.

Foliar applications of **MKP Bloom Enhancer** will help suppress leaf diseases such as powdery mildew, when infection pressure is low.

BENEFITS

- Gives excellent budding, blooming, flowering and quality fruiting.
- Increase uptake of various vital elements like Nitrogen, Iron, Boron, Copper and Manganese.
- Boosted root growth.
- Increases the luster quality of seeds and enhance the crop hardy.
- Increases yield and shelf life of the produce.
- Free from Chloride, Sodium and other harmful elements.

APPLICATION FREQUENCY

Apply once a week.
