

HYDROPONICS ALL-IN-ONE PLANT FOOD 2-1-6

HYDROPONICS ALL-IN-ONE PLANT FOOD 2-1-6 is highly quality fertilizer for Drip Irrigation, NFT, and all types of Hydroponic Systems.

HYDROPONICS ALL-IN-ONE PLANT FOOD 2-1-6 is organic-based, natural and sustainable liquid base fertilizer, making it ideal for hydro-organic gardeners and certified organic commercial food producers.

HYDROPONICS ALL-IN-ONE PLANT FOOD 2-1-6 contain major plant nutrients (nitrogen, phosphorous and potassium) Micronutrients and minerals, such as zinc and iron essential for vegetative plant growth and development.

HYDROPONICS ALL-IN-ONE PLANT FOOD 2-1-6 contain a mild, non-burning form of seaweed. The low numbers in the N-P-K ratio are a clue that you can use it every time (as directed) without damage to your plants.

HYDROPONICS ALL-IN-ONE PLANT FOOD 2-1-6 also makes a great foliar spray. Mix it according to directions, and mist your plants with it every 3 or 4 days. The solution requires no Ph correction, and plants treated in this way will never develop a micro-nutrient deficiency... not to mention the faster growth rates.

Tips :

- For best results foliar spray once per week.
- Foliar spraying works best when done in the early morning or early evening.

- Using a pressurized sprayer will increase coverage and maximize plant uptake.
- Foliar feeding is a method of supplying plant nutrients by applying liquid fertilizer directly to the leaves.
- Foliar feeding is highly effective because the nutrients are taken up by the leaf stomata which can help to correct localized deficiencies and increase uptake of nutrients.
