STARX[®]
FOR ORGANIC GARDENING

Organic Sheep Pellets Fertilizer is a natural organic fertilizer and soil conditioner created from sheep manure, which is a great fertilizers for veges in your home garden.

Organic Sheep Pellets Fertilizer contains five essential nutrients for healthy plants including Nitrogen, Phosphorus, Potassium, Sulphur and Calcium.

Organic Sheep Pellets Fertilizer is also an excellent food source for soil bacteria, fungi and earthworms. Bacteria and fungi are essential for the break-down of plant residues in the soil and earthworms have beneficial effects on soil aeration water-holding capacity and nutrient availability.

Organic Sheep Pellets Fertilizer provides both slow and long-term release of nutrients for rapid response and nutrient longevity.

Organic Sheep Pellets Fertilizer contain organic matters makes both sandy and clay soils easier to work by improving the structure of the soil. Soil structure influences aeration and permeability and has a major effect on the growth of plant roots.

Organic Sheep Pellets Fertilizer provide a balanced source of organic nutrients:

- 3% Nitrogen for better growth
- 3% Phosphorous for improved root development
- 3% Potassium for increased fruiting and flowering

DIRECTIONS FOR USE

For Garden Beds (Flowers and Vegetables)

Add 500g - 800g per square metre and fork into soil to a depth of around 200mm.

For Planting (Roses and Ornamental Shrubs)

Add 1kg to each planting hole and mix thoroughly with soil.

Side Dressing or Mulch (Trees and Shrubs)

Apply 1kg - 1.5kg liberally as mulch around existing plants to a depth of around 3cm and water thoroughly. Keep away from the base of the plants.
