

Starx Tree Wound Sealant

Volume Solids	46%
Water Resistance	Good
Consistency	Soft Thixotropic
Application Temperature	5 °c to 40 °c
Drying Time	Touch Dry: +1 Hour Hard Dry: +24 Hours Full Cure: +5 Days

STARX TREE WOUND SEALANT is a long lasting pruning wound protectant sealant for use on orchard, vineyard and ornamental plants.

STARX TREE WOUND SEALANT stimulates rapid natural callusing and healing, giving greater protection against disease, desiccation of the wound, and decay entering the plant.

STARX TREE WOUND SEALANT is specially formulated to suit all pruning situations.

BENEFITS :

- For pruning cuts and tree injuries.
- Provides a flexible and weatherproof seal.
- Helps minimize sap loss during healing.
- It is durable, easy to use and fast drying and is not affected by rain if dry.
- Use on fruit, shade and ornamental trees.
- Assists in the prevention of infection by organisms inducing decay.
- Creates suitable environment for callusing.
- It has an ideal viscosity, is non-phytotoxic and prevents desiccation.

USES :

- In order for trees and shrubs to remain healthy and continue to grow and produce fruit it is necessary to ensure that these plants are regularly pruned.
- Correct shaping of plants can help produce more economic fruit crops. It is important to remove dead or diseased wood, as plants need light to grow well.

SURFACE PREPARATION :

Pruning cuts should be made immediately above buds or side branches at an angle of approximately 45 degrees to allow water to run off.

Ensure cuts are clean by using sharp tools and avoid damaging or bruising the plant whilst cutting.

Apply tree seal pruning grade immediately to the freshly cut and trimmed plant ensuring surface area is completely and thoroughly sealed.

BONDING/PRIMING : No bonding or priming of the surface is necessary.

COVERAGE : Use as required.

APPLICATION : **STARX TREE WOUND SEALANT** is applied by brush ensuring the entire surface area is completely covered.

CLEANING : Tools, brushes and mixing equipment should be cleaned immediately after use and before with **STARX TREE WOUND SEALANT** by washing with soap and water.

HANDLING & STORAGE : Keep tightly sealed in a dry cool place in the original packaging.
